

# The importance of English for pre school education

Foreign language in pre-school and  
primary education, students of group  
541-(19) Narbayeva Maftuna

## Abstract

English has fast become the world's most widely used and commonly spoken language today and the need to learn English for kids has gone up exponentially with this growth. Most countries have embraced the English Language as a common dominator in communication across while traveling abroad or working with foreigners. It is this widespread use that has defined it as one of the most influential languages in the world and as such many parents prefer their children learning English as a second language.

**Key words :** Second language, English language, communication, international language, for kids , foreign language , culture

## Introduction

Nowadays, it is common practice for people to use English. English is an international language which plays an important role in the daily life of everyone around the world . English is commonly used in education, work,

entertainment, communication, travel and makes English very essential to master. Especially learning English language at an early age is fundamental for a child's development. It helps them be more successful later in life and explore new cultures. Learning English language also creates many opportunities for children, such as going on exchange programs or studying abroad. Parents say that, it is our job to make sure that we provide the best resources possible for our kids to grow up and have all of these experiences.<sup>1</sup>

### **Learning English language from a young age is essential**

English is the universal language . It is a fact that English will be necessary for most current jobs and to get by in life so, it is essential to learn from early childhood!

Now I will show a number of reasons, why crucial is learning English for children?

#### **Expands child' s vocabulary.**

One of the main reasons for learning the English language from young age is expanding children's vocabulary. This starts with learning simple words like, cat, dog, mouse and than more complicated expression like expendable. Vocabulary helps to children learn new concepts. Spoken English learning also helps them learn the pronunciation of words and how words are written down.

### **Leaning English courses early will help them to learn**

**things easier.**

Learning English at young age will help to accelerate learning in school. This can be for learning topics that they have not studied yet or learning new concepts that are very complicated . It is easy to use this concept to encourage children to learn more about their world and how it works.

**It improves memory and learning ability.**

If you are learning language, learning it early can help as your brain is still developing and growing. Learning at a young age , in particular, will help improve memory skills later on when learning more in school where children have to remember facts for test os exams . This will put into children good learning position for learning how to read and write .<sup>2</sup>
